

# 12-0-20 with EPEC

For consistency and results, Turf Mangers turn to ProGreen Plus Professional Turf Fertilizer with EPEC® controlled-release fertilizer.

EPEC coated nitrogen contains the latest in polymer-coated technology that delivers reliable nutrient release with lower potential for nitrogen loss from leaching or volatilization.

## 33% EPEC, Biosolids 2-MONTH FEEDING

**12-0-20**  
PCU, Biosolids

**GUARANTEED ANALYSIS**

**Total Nitrogen (N)** ..... 12.0%  
 0.7% Water insoluble nitrogen  
 11.3% Urea nitrogen\*  
**Soluble Potash (K<sub>2</sub>O)** ..... 20.0%

**Plant foods derived from:** Urea, Muriate of Potash, Polymer Coated Urea and Biosolids.

\*3.96% slowly available urea nitrogen from polymer coated urea.

### FEATURES

- Reduced likelihood of growth flushes and burn
- Release regulated by soil temperature and coating thickness
- Environmentally responsible with lower potential for nutrient leaching, denitrification, runoff, or volatilization

**CONSISTENT. RELIABLE. PRECISE**

### KEY BENEFITS

- Quick greening
- Provides long-lasting feeding
- Contains biosolids to increase nutrient uptake
- Potash to enhance turf health and root development
