GUARANTEED ANALYSIS
Total Nitrogen (N) 44.0%
44.0% Urea nitrogen*

Plant foods derived from: Polymer Coated Urea

*44% slowly available urea nitrogen from polymer coated urea.

FEATURES

- Reduced likelihood of growth flushes and burn
- Release regulated by soil temperature and coating thickness
- Environmentally responsible with lower potential for nutrient leaching, denitrification, runoff, or volatilization

CONSISTENT. RELIABLE. PRECISE

KEY BENEFITS

- Provides long-lasting feeding
- 100% coated ingredients for superior handling and spreadability
