

Geese Problems?

Flight Control® Max
Is The Answer To
Your Goose Problems!

Flight Control® Max Is A Liquid Goose
Repellent For Turf Application.
It Will Prevent Canada Geese
From Feeding On Treated Turf.

WATERPROOF • LONG-LASTING
ODORLESS • NON-TOXIC • HUMANE
PEOPLE & PET FRIENDLY • ECO-FRIENDLY
PERSISTENT (Works 24/7)

**NO ONE SHOULD HAVE TO WALK
THROUGH GOOSE DROPPINGS!**

Flight Control® Max is an advanced repellent with a patented and unique technology. It is unlike any other goose control product on the market. Eating the treated turf gives the geese a strong, but harmless, digestive irritation. And because of a UV marker in the product, geese can see the difference between treated and untreated turf. Geese actually **LEARN** to avoid treated turf and are forced to leave the area in search of food.
