AQUAMASTER[®]
Herbicide

AquaMaster[®] Herbicide **for aquatic and terrestrial use**

Is a complete broad-spectrum postemergence herbicide for aquatic, crop, non-agricultural crop, industrial, turf, ornamental, forestry, roadside, and utility rights-of-way weed control.

Anywhere weeds and water meet, there's a strong chance that vegetation management problems can grow. Anyone who manages weeds and brush in sensitive aquatic or terrestrial sites knows that, when left unchecked, they create a growing problem. AquaMaster[®] Herbicide for aquatic & terrestrial use herbicide offers a multitask solution with applicator and use site flexibility.

Features & Benefits

- ✓ Application and use flexibility for emerged weed and brush control in or around water
- ✓ Offers the flexibility to choose the right surfactant, tank mix, or custom herbicide blend for the job at hand
- ✓ Nonselective and highly effective on more than 190 species of emerged weeds, brush, and vines
- ✓ Excellent fit for aquatic, forestry, right-of-way, industrial, turf, ornamental, and habitat-restoration use sites, especially where weeds and water meet
- ✓ 24-Hour Hotline Support
- ✓ Local Training and Support

Performance may vary, from location to location and from year to year, as local growing, soil and environmental conditions may vary. Users should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on their growing environment. The recommendations in this material are based upon trial observations and feedback received from a limited number of users and growing environments. These recommendations should be considered as one reference point and should not be substituted for the professional opinion of agronomists, entomologists or other relevant experts evaluating specific conditions.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

Not all products are registered for use in all states and may be subject to use restrictions. Roundup[®] Technology includes glyphosate-based herbicide technologies. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited.
