## **Application Guidelines** (Post-Treat/De-Ice)

- Mechanically remove as much accumulated snow and ice as possible.
- Apply Entry at a minimum rate of ¾ gallon (2.84 Liters) per 1,000 square feet (92.9 square meters).
- Increase minimum application rate of Entry to 1 gallon (3.79 Liters) per 1,000 square feet (92.9 square meters) if temperatures are below or expected to reach 0 degrees Fahrenheit (-17.78 degrees Celsius).
- Do not try to melt the snow or ice with Entry. Apply evenly and then allow 1 to 2 minutes for Entry to perform. If necessary spot treat any areas where there is any residual accumulation.
- Entry is not recommended to melt wet snow (slush) or to melt through ice or compacted snow.

# **Application Guidelines** (Pre-Treat/Anti-Ice)

- Entry is primarily recommended for use as a post-treat. In the event Entry is used as a pre-treat the following application guidelines should be followed.
- ♣ Do not use if sleet, freezing rain or ice is in the forecast.
- Entry may be applied up to six hours before frozen precipitation begins falling.
- Treat the surface area completely to assist in preventing the adhesion and accumulation of snow and ice.
- # Apply at a minimum rate of ¼ gallon (2.84 liters) per 1,000 square feet (92.9 square meters).
- Product can be reapplied if frozen precipitation begins to accumulate.

# **Storage & Handling Instructions**

Eyeglasses or goggles are recommended. Protective clothing may be worn but is not generally not required. Entry is ready to use. Further dilution or mixing of other products is not recommended. Keep containers tightly closed and stored in a cool, well-ventilated space.

### **First Aid**

**For Eyes:** Rinse carefully with water for several minutes. Remove contact lenses if able and continue rinsing. Immediately call poison center or doctor/physician.

For Skin: Thoroughly wash with soap and water. If irritation persists, seek medical attention.

**For Inhalation**: Remove to fresh air. If not breathing, give artificial respiration. Seek medical attention.

**For Ingestion:** Call a physician immediately. Do not induce vomiting without medical advice.

#### **Cautions**

- Do not use if temperatures are below -30 degrees Fahrenheit (-34 degrees Celsius).
- Do not use on concrete poured or pavers installed in the last 18 months unless approved by contractor.
- Do not use on structural concrete unless approved by engineer or contractor.
- Do not apply on specialty stone surfaces such as granite and marble unless approved by engineer or contractor.
- Product has been designed for use in pedestrian and low speed parking lot areas such as drop off zones. Product is not recommended to be used outside of these areas.
- Do not apply near in-ground lighting. Product may become electrically conductive.
- A number of conditions can affect product performance including the type of surface area, surface temperature, surface grade, air temperature, application timing and rate. As a result, application guidelines should be carefully reviewed but are made without guarantee, warranty or responsibility of any kind.

### Warranty

Seller warrants this material conforms to its description and is reasonably fit for the purpose stated on the label when used in accordance with any directions provided, with proper equipment in good working order and under normal conditions of use. Buyer assumes the risk of any contrary use. Seller makes no other expressed or implied warranty of fitness for a particular purpose, and no agent or seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

INGREDIENTS	
Active Ingredients	CAS No.
Inhibited Potassium Formate	590-29-4
Adjuvant Formulation	Proprietary

Manufactured by: Branch Creek Organics, LLC P.O. Box 523 Harleysville, PA 19438 267-203-1609
