

ICE MELTER & PRO-MELT

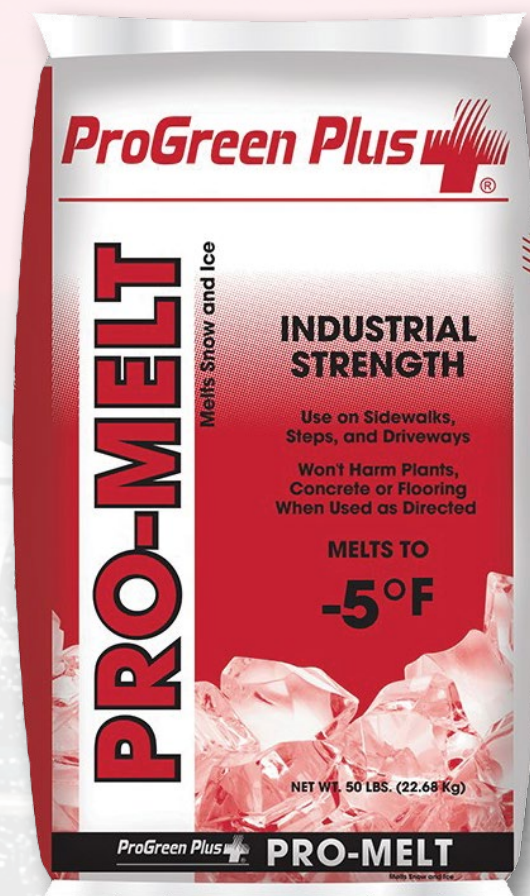

See details on the other side.

ProGreen Plus® Ice Melt is a powerful ice melt specifically designed for peak performance in the commercial and industrial markets. Its low temperature performance and immediate melting are what separate ProGreen Plus Ice Melt from the competition. A combination of calcium chloride and magnesium chloride delivers a quick-acting thaw and melts to -20° F.

ICE MELTER SPECIFICATIONS

Item Number	Size	Pallet Weight	Units/Pallet	UPC Code
63-002	50 lb Bag	2450 lbs	49 Bags	24378-90050

ProGreen Plus® Pro-Melt is an economically priced ice melt with exceptional performance in some of the worst conditions. Pro-Melt is dyed green to ensure accurate/even spreading and leaves no residue. Calcium chloride and magnesium chloride combine to quickly generate heat and draw moisture from the air to provide a fast, even thaw at temperatures as low as -5° F.

PRO-MELT SPECIFICATIONS

Item Number	Size	Pallet Weight	Units/Pallet	UPC Code
63-0025	50 lb Bag	2450 lbs	49 Bags	24378-90060

Safe to the Outdoors

Ice Melt and Pro-Melt are tough on winter snow and ice, but safe to vegetation and wildlife when used as directed.

Safe on Concrete & Treated Wood

Ice Melt and Pro-Melt do not contain any ingredients that will chemically alter or damage air-entrained quality concrete or treated wood when used as directed. The extended melting period allows more water to evaporate which helps prevent damage from freeze and thaw cycles.*

No Hassle Storage & Handling

Ice Melt and Pro-Melt have an unlimited shelf life and needs no special storage or handling.

*Directions

Spread at the rate of 1/4 cup per square yard. Remove slush immediately to prevent penetration of porous areas and cracks in the concrete, as continual thawing and freezing action can cause damage to poor quality concrete. Leaves no messy white residue to coat sidewalks or to be tracked into buildings. Will not harm carpet or floors.
