Melts Snow and Ice

**Instantaneous  
Melting Action  
at Sub-Zero  
Temperatures**

**COATED WITH  
AMC  
The Performance  
Enhancing Catalyst  
That Provides  
Instant Melting Action**

Need the best? Look no further than PROGREEN PLUS ICE MELTER. PROGREEN PLUS ICE MELTER is a powerful ice melter specifically designed for peak performance in the commercial and industrial markets. Low temperature performance and immediate melting are the two distinct features that separate PROGREEN PLUS ICE MELTER from the competition. Calcium chloride and Magnesium chloride combine to give PROGREEN PLUS ICE MELTER a quick acting thaw that is unmatched by any other blended product on the market. PROGREEN PLUS ICE MELTER delivers an immediate, sustaining thaw and does not back down from any type of winter weather - ice, snow, or the treacherous combination of both. It takes the work out of de-icing while keeping pedestrians safe. Sidewalks, commercial entrances, parking lots and high traffic walkways will stay clean with the blend that outperforms the competition - PROGREEN PLUS ICE MELTER.

Looking for an exceptional ice melter without the high price tag? PROMELT is the economical choice, yet remains exceptionally productive even in the worst weather. Calcium chloride & magnesium chloride, two high-powered materials, combine to quickly generate heat and draw moisture from the air to ensure a speedy thaw even at temperatures as low as -5°degrees. Applying too much product leads to problems, which is why PROMELT is dyed green, allowing you to see where and how much you are applying. Being able to place the product where it's needed and in the correct amounts, minimizes damage to vegetation and also cuts down on damage to concrete. If a safe, clear, clean surface that is within your budget is what you need, PROMELT is the ice melter for you!

### SAFE TO THE OUTDOORS

PROGREEN PLUS and PRO MELT ICE MELTERS are tough on winter snow and ice, but safe to vegetation and wildlife when used as directed.

### SAFE ON CONCRETE & TREATED WOOD

PROGREEN PLUS and PRO MELT ICE MELTERS do not contain any ingredients that will chemically alter or damage air-entrained quality concrete or treated wood when used as directed. The extended melting period allows more water to evaporate which helps prevent damage from freeze and thaw cycles.\*

### NO HASSLE STORAGE & HANDLING

PROGREEN PLUS and PRO MELT ICE MELTERS have an unlimited shelf-life and needs no special storage or handling.

### \*DIRECTIONS:

Spread at the rate of about 1/4 cup per sq. yd. Leaves no messy white residue to coat sidewalks or to be tracked into buildings. Remove the slush immediately to prevent penetration of porous areas and cracks in the concrete, as continual thawing and freezing action can cause damage to poor quality concrete. Will not harm carpet or floors.
