

An Entire Team of Solutions

For more than 50 years, Roundup® brand products have built a reputation for providing dependable solutions to weed control problems. Its family of Industrial, Turf, and Ornamental herbicides provides consistent quality and performance in professional management situations such as roadsides, railroad rights of way, turf management, and landscaping.

Roundup PROMAX® | Roundup QuikPRO® | Roundup PRO® Concentrate
AquaMaster® | Ranger PRO®

Roundup PROMAX® Herbicide

- ✓ Potassium salt formulation allows for a highly concentrated formula
- ✓ One gallon of Roundup PROMAX contains the glyphosate acid equivalent of six quarts of RoundupPRO® herbicide
- ✓ Controls a broad-spectrum of weeds
- ✓ Consistent performance across many environments
- ✓ 30-minute rainfast warranty

Roundup QuikPRO® Herbicide

- ✓ Dry formulation is easy to handle, easy to clean up
- ✓ Quick plant uptake helps to speed up weed-killing power right to the root
- ✓ Visible results within 48 hours — that's up to four times faster than other formulations of our current Roundup® brand of products
- ✓ Rainfast in one hour
- ✓ Available in a 6.8 – pound jug or 1.5 Oz. DosePAK packaged fifteen 1.5 oz packages per box, two boxes to a case

Roundup PRO® Concentrate Herbicide

- ✓ Proven PROformance® Technology
- ✓ Excellent weed control across a wide range of annual and perennial weeds
- ✓ Concentrated formula and proven surfactant technology allows for efficient mixing and loading
- ✓ Rainfast in as little as one hour
- ✓ Packaging options available to fit many application needs

AquaMaster® Herbicide

- ✓ Excellent fit for aquatic, forestry, right-of-way, industrial, turf, ornamental, and habitat-restoration use sites, especially where weeds and water meet
- ✓ Offers the flexibility to choose the right surfactant, tank mix, or custom herbicide blend for the job at hand
- ✓ Application and use flexibility for emerged weed and brush control in or around water
- ✓ Nonselective and highly effective on more than 190 species of emerged weeds, brush, and vines

Ranger PRO® Herbicide

- ✓ Broad-Spectrum post emergence professional herbicide for industrial, turf and ornamental weed control
- ✓ Controls many annual weeds, perennial weeds, woody brush, and trees
- ✓ Formulated as a water-soluble liquid containing surfactant and no additional surfactant is needed or recommended
- ✓ Post emergence herbicide with no residual soil activity

Performance may vary, from location to location and from year to year, as local growing, soil and environmental conditions may vary. Users should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on their growing environment. The recommendations in this material are based upon trial observations and feedback received from a limited number of users and growing environments. These recommendations should be considered as one reference point and should not be substituted for the professional opinion of agronomists, entomologists or other relevant experts evaluating specific conditions.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

Roundup® Technology includes glyphosate-based herbicide technologies. Not all products are registered for use in all states and may be subject to use restrictions. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your state department(s) of agriculture, local dealer or representative for the product registration status in your state.
