 - 265-gallon returnable tote

Areas of Use

- ✓ Park, Recreational, and Residential Areas
- ✓ Ornamentals, Plant Nurseries, and Christmas Trees
- ✓ Non-Crop Areas and Industrial Sites
- ✓ Habitat Management
- ✓ Cut Stump

Performance may vary, from location to location and from year to year, as local growing, soil and environmental conditions may vary. Users should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on their growing environment.

The recommendations in this material are based upon trial observations and feedback received from a limited number of users and growing environments. These recommendations should be considered as one reference point and should not be substituted for the professional opinion of agronomists, entomologists or other relevant experts evaluating specific conditions.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

Roundup® Technology includes glyphosate-based herbicide technologies. Not all products are registered for use in all states and may be subject to use restrictions. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your state department(s) of agriculture, local dealer or representative for the product registration status in your state.
