- Easy to use
- Increased profitability

EVOFACTOR™ GROWER TRIALS CONSISTENTLY SHOW INCREASED ROOT AND STRONGER ROOT DEVELOPMENT USING 50% LESS FERTILIZER.

Evofactor™ Mums are:

- More efficient
- More resilient
- More vibrant
- More profitable

WITH EVOFACTOR™ Growers Consistently report:

- USING 50% LESS FERTILIZER
- INCREASING PROFITS
- MAINTAINING OR INCREASED QUALITY

SIMPLE TO USE. CONSISTENT RESULTS.

- EVOFACTOR™ WORKS WITH ALL EXISTING FERTILITY AND WATER QUALITY PROGRAMS.
- SIMPLY ADD EVOFACTOR™ TO YOUR FERTILIZER STOCK TANK LAST
- COMPATIBLE WITH MOST FERTILIZERS AND IRRIGATION SYSTEMS

Evofactor™ for Mum Production

Grow Higher-Quality Mums using half the Fertilizer

EVOFACTOR™ RECOMMENDED USAGE RATES

APPLICATION METHOD

- Add EVOFACTOR last directly into your concentrated stock tank mix.
- While not required, for optimal results, agitation is recommended.
- Allow to sit for 15 minutes prior to use.

RECOMMENDED RATE

- Use 3.5oz of EVOFACTOR for every 1lb of actual Nitrogen in your fertilizer.
- Refer to the Rate Chart to calculate the amount of EVOFACTOR per 25lb bag of water-soluble fertilizer.

% Nitrogen of Fertilizer	EVOFACTOR rate PER 25lb bag of water-soluble fertilizer
5	4.5 fl. oz.
10	9 fl. oz.
12	10.5 fl. oz.
13	11.5 fl. oz.
14	12.25 fl. oz.
15	13 fl. oz.
16	14 fl. oz.
17	15 fl. oz.
18	15.75 fl. oz.
19	16.75 fl. oz.
20	17.5 fl. oz.
21	18.5 fl. oz.
24	21 fl. oz.
25	22 fl. oz.
30	26.25 fl. oz.

Mums pictured were produced using 75 PPM to start and finished at 100 PPM
